FINANCIAL SECTION
INDEPENDENT AUDITORS' REPORT

Board of Trustees
West Valley-Mission Community College District
Saratoga, California

We have audited the basic financial statements of West Valley-Mission Community College District (the District) as of and for the years ended June 30, 2011 and 2010, and its discretely presented component unit Mission-West Valley Land Corporation as listed in the Table of Contents. These basic financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Land Corporation were not audited in accordance with Government Auditing Standards. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

In our opinion the basic financial statements referred to above present fairly, in all material respects, the financial position of West Valley-Mission Community College District, and its discretely presented component unit, as of June 30, 2011 and 2010, and the respective changes in financial position and cash flows, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 21, 2011, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and is important for assessing the results of our audit.
Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Other Postemployment Benefits (OPEB) Funding Progress as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information listed in the Table of Contents, including the Schedule of Expenditures of Federal Awards, which is required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Vavrinek, Trine, Day & Co LLP

Pleasanton, California
December 21, 2011
USING THIS ANNUAL REPORT

The purpose of this annual report is to provide readers with information about the activities, programs, and financial condition of the West Valley-Mission Community College District (the District) as of June 30, 2011. This section of the annual financial report presents our discussion and analysis of the District’s financial performance during the fiscal year that ended June 30, 2011. Please read it in conjunction with the District’s financial statements, which immediately follow this section. Responsibility for the completeness and accuracy of this information rests with the District Management.

OBJECTIVES OF THE AUDIT

The audit of the West Valley-Mission Community College District had the following objectives:

- To express an opinion as to whether the financial statements are fairly presented, in all material respects, in conformity with U. S. generally accepted accounting principles (GAAP).
- To evaluate the adequacy of the systems and procedures affecting compliance with government audit standards, guides, procedures, statutes, rules, and regulations which could have a material effect on the financial statements in accordance with government auditing standards.
- To review and report on the District’s system of internal controls related to major federal programs.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Annual report consists of three basic financial statements that provide information on the District as a whole:

- The Statement of Net Assets - page 18
- Statement of Revenues, Expenses, and Changes in Net Assets – page 19
- The Statement of Cash Flows – page 20

The focus of the Statement of Net Assets is designed to be similar to the bottom line results of the District. This statement combines and consolidates current financial resources with capital assets and long-term obligations.

The Statement of Revenues, Expenses, and Changes in Net Assets focuses on the costs of the District’s operational activities, which are supported primarily by local property taxes and State apportionment revenues. Activities are reported as either operating or non-operating. A community college depends on State apportionment for operating expenses; however, the operating expenses reflect a loss because the financial reporting model classifies State appropriations, taxes and interest income as non-operating revenues.

The Statement of Cash Flow provides an analysis of the sources and uses of cash within the operations of the District. This statement helps measure the ability to meet financial obligations as they mature.

The California Community Colleges System’s Office has recommended that all State community colleges follow the Business Type Activity (BTA) model for financial reporting purposes.
STUDENT ATTENDANCE HIGHLIGHTS

The CCFS-320 Annual Student Attendance Report (P-3) in fiscal year 2010-11, for West Valley-Mission Community College District, reported an increase of 267 full-time equivalent students (FTES) from the previous year’s base. The increase of FTES was due to a growth funding of 2.21 percent.

Enrollment continues to be a major challenge and opportunity for the District. The colleges are aggressively pursuing additional enrollment with a combination of strategies that include marketing, targeted recruitment and outreach, program development, additional class sections on and off-site.

This chart illustrates total credit and noncredit FTES reported on the CCFS-320 Attendance Report increased by 267 FTES or an increase of 1.5 percent from FY2009 – 10 to FY 2010-11.
FINANCIAL HIGHLIGHTS

- The District’s revenue is dependent on the State’s enrollment-based funding formula. SB 361, established in 2006, revised the California Community College (CCC) apportionment allocation formula to help ensure that district funding rates were permanently equalized at the 90th percentile of the highest funded district. CCC receives most of their monies from three major sources: state general funds, local property taxes, and student fees. The level of funding varies from year to year and if state revenue projections change, such as a property tax shortfall, then the State applies a deficit factor to reduce apportionment revenues, even after the close of a fiscal year.

- Student enrollment fees remained at $26 per unit during the fiscal year of 2010-11. California state revenues declined from loss of property taxes and increased unemployment which resulted in a State revenue shortfall. The total general deficit for the CCC system equaled $30 million for a net reduction in 2010-2011, or a loss of 0.9947 percent. As of June 2011, a deficit factor was applied to the apportionment computational revenue, which was an additional loss of $455,067 revenue or 100 credit FTES for WVMCCD.

- The economic position of the District is closely tied to that of the State of California. The District received zero funding for the estimated -0.38 percent cost-of-living adjustment (COLA) in fiscal year 2010-11 and zero funding of all growth funds. The District’s Unrestricted General Fund received 19.5 percent ($18.2 million) of funding through State apportionment; 80.5 percent ($75 million) from local sources.

- The District ended the 2010-11 fiscal year with an Unrestricted General Fund balance of $5,634,262 million. As of June 30, 2011, the Unrestricted General Fund reserve was $4,617,840 million or 5 percent of the Unrestricted General Fund expenditures. The Board of Trustees has set a goal to maintain at least a 5 percent reserve for the Unrestricted General Fund expenditures.

- The District is committed to recruiting and retaining outstanding faculty and staff and one way to compete with peer institutions and non-academic employers is through a total compensation package. COLA was not funded in fiscal year 2010-11, however, annual step and column increase on the salary schedule was funded.

- To offset a projected deficit for fiscal year 2011-12, an agreement was reached with all bargaining units, to cap medical benefits at $18,050 annually.

- The average cost for health premiums increased by 1.9 percent in fiscal year 2010-11. The annual composite rate of $17,460 per FTE was used for budget purposes, or an increase of $330/FTE from the prior year’s composite rate of $17,130.

- The Board of Trustees authorized the District to offer an early retirement incentive program to the Associated College Educators (ACE), meet-and confer groups, and supervisors for fiscal year 2009-10, and fiscal year 2010-11, to realize some salary and benefit savings. The retirement incentive programs included a supplemental employee retirement program (SERP), cash incentives, and a CalSTRS 2+ program. The funding for the retirement incentives was obtained from Mission-West Valley Land Corporation. Expenditures for SERP continue until fiscal year 2011-12, with a total liability to the Unrestricted General Fund of $185,633 annually.
Medical and mandatory benefit costs for both employees and retirees continue to increase. The District provides retirees, hired before 1994, with lifetime medical benefits. The District has accounted for retiree benefits on a “pay-as-you-go” basis. An actuarial study determined that present value liability for those benefits, as of December, 2010, was $108.4 million. This amount represents the present value of all benefits to be paid for current and future retirees. An on-going solution to cover the increased costs of retiree benefits is to participate in the California Employer’s Retirement Benefit Trust (CERBT). Effective January 1, 2008, all California public employers were permitted to join the CERBT program to pre-fund other post-employment benefit (OPEB) obligations. The CERBT is a Section 115 Trust and is Internal Revenue Service-compliant. West Valley Mission CC District approved a Board resolution in FY 2010-11, to authorize the District to “deposit all or a portion of the amounts received from the State of California in connection with the construction of capital projects into an irrevocable trust under the auspices of the CalPERS and invested therein in accordance with the investment criteria established by CalPERS.” It is an irrevocable trust dedicated to the purpose of pre-funding OPEB.

Student financial aid provided to qualifying students throughout the District is approximately $20.1 million in fiscal year 2010-11. This aid is provided through grants and loans from the Federal government, the State Chancellor’s Office, and local funding.

The District’s Non-Resident tuition fee for fiscal year 2010-11 is $199 per unit based on no more than contiguous districts non-resident tuition rate and the capital outlay fee of $0 per unit remains the same.

In November 2004, the voters approved a Proposition 39, General Obligation Bond (Measure H), for $235 million. Funds from Measure H will be used to provide expansion, major safety, repairs, renovations, and modernization at both college campuses. The active construction project list funded by Measure H bonds and state capital project funds during 2010-11 includes the West Valley Campus Fox (Technology) Center, completed January 2010; West Valley Math and Science Addition, completed and opened for classes Summer 2009; Renovation of the match and Science building, started Fall 2009; and Mission College has its first renovation project start with the Hospitality Management building in the Fall.

The District has $214.7 million in general obligation bonds outstanding, including accreted interest, at the end of fiscal year 2010-11.

</table>

- Cash and investments consist mainly of cash in the county treasury, local agency investment funds (LAIF), and investments from the 2009 Revenue Bond issue. Cash increased by $38.3 million from the prior year. Interest income has continued to decline over the last fiscal year due to a steady fall of interest rates and Treasury bill yield.
- Restricted cash and investments decreased by $70.2 million from 2009 Revenue bond proceeds and capital outlay expenditures of general obligation bonds and funding of the other post employment benefits irrevocable trust.
- Net accounts receivable consist mainly of receivables from state and federal grants. Receivables increased by $1.5 million due primarily to timing differences in when the State Chancellor’s Office pays deferred payments to the District. The District has earned these funds but has not yet received the cash as of the fiscal year end.
- Other current assets increased by $6 million due to an amount to be paid from the retirement trust fund to the governmental fund which pays the retiree benefits.
- Other non-current assets increased by $17.6 million as a result of the first transfer into the retirement irrevocable trust fund that occurred in 2010-11.
WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT

MANAGEMENT’S DISCUSSION AND ANALYSIS
JUNE 30, 2011

- Capital assets (net of depreciation) are the historical value of land, buildings, construction in progress and equipment less depreciation. Net Capital assets increased by $27.9 million due to an increase to Construction in Progress for Measure H construction projects.
- Accounts payable and accrued liabilities consist mainly of payables to vendors and accrued payroll benefits. The $3.4 million increase is primarily due to changes in vendor payables.
- Deferred revenue relates to federal, state, and local program funds that were received, but not yet earned, as of the fiscal year end. Most grants are considered earned when spent up to the amount of the award. There was no significant change in the current year.
- The current portion of long-term obligations consists of the principal payment for the Measure H bond, Compensated Absences, Capital Leases and Apportionment.
- The non-current portion of Long-term obligations is all of the long-term debt that is to be paid beyond the next fiscal year. It currently consists of the Measure H bond, amortized bond premiums, Compensated Absences, and Capital Leases.
- Net assets remained relatively stable.

OPERATING RESULTS FOR THE YEAR

The results of this year’s operations for the District as a whole are reported in the Statement of Revenues, Expenses, and Changes in Net Assets on page 19.

</table>
The District’s primary revenue fund is the state apportionment calculation, which is comprised of three sources of revenues: local property taxes, student enrollment fees and state apportionment. We noted an increase in property taxes levied and received from property within the county. Receipts include an assessment for property tax to be used to repay the general obligation bonds. Taxes collected for specific purposes declined from the previous fiscal year due to a large bond payment.

Grant and contract revenues relate primarily to student financial aid as well as to specific Federal and State grants received for programs serving the students and programs of the District. These grant and program revenues are restricted as to the allowable expenses related to the programs. (Net change is an increase of $4.5 million).

Auxiliary revenue consists of community education funds and contract education revenues. The operation is self-supporting and contributes to the student programs on the campus (Net change is an increase of $0.1 million).

Interest income of $0.6 million was off-set by interest expense of $18.3 million. The interest income is primarily the result of cash held in the Santa Clara County Treasury. Interest income and interest expense (net) changed by $9.6 million over the 2009-10 fiscal year due to declining interest rates throughout the year and increases in debt service payments.
The overall operating expenses for the District increased by 6.0% from the previous fiscal year end. Salaries and benefits increased by an average of 2.5% over the prior year. This increase is a net of increases to health insurance premiums, annual step and column salary increases, and other post employment benefits, offset by a decrease of full-time equivalent staff and increased efficiency. Supplies, materials, and other operating expenses and services increased by $5.5 million due mainly to increases in financial aid awards. The increase in depreciation expenses is due to increasing capital assets from bond projects.
The following chart represents the District’s operating expenses. The total cost of salaries and benefits accounts for 68% of the total expenditures. The other operating expenses comprise of 29% of the District expenditures, such as financial aid, instructional contracts, facilities rentals, advertising, property insurance, legal services, and many other expenses that are necessary to the operation of a college.
In accordance with requirements set forth by the California Community Colleges Chancellor’s Office, the District reports operating expenses by object code. Operating expenses by functional classification are as follows:

Functional expenses for the year ended June 30, 2011 for all Funds except Trust and Agency Funds are as follows:

The Chart below compares FY 2010-2011 to FY 2009-10 as a percent of total operating expenses by functional classifications.

### CHANGES IN CASH POSITION

The Statement of Cash Flows on pages 20 and 21 provides information about our cash receipts and payments during the year. This statement also assists users in assessing the District’s ability to meet its obligations as they come due and its need for external financing. Our primary operating receipts are student tuition and fees. The primary operating expense of the District is the payment of salaries and benefits to instructional and classified support staff.

While State apportionment revenues, federal and state grants, and property taxes are the primary source of non-capital related revenue, the GASB accounting standards require that this source of revenue is shown as non-operating revenue as it comes from the general resources of the State and not the primary users of the college’s programs and services – our students.

WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT

MANAGEMENT’S DISCUSSION AND ANALYSIS
JUNE 30, 2011

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2011, the District had $187.1 million of capital assets, including land, buildings, and furniture and equipment. At June 30, 2010, our capital assets were $159.2 million. The District is currently in the middle of a major capital improvement program with construction on-going throughout the college campuses. These projects are primarily funded through our general obligation bonds. These projects are accounted for within our Construction in Progress account until the project is completed, at which time the cost of the buildings and/or improvements will be brought into the depreciable Buildings and Improvement category.

Capital projects are continuing through the 2011-12 fiscal year and beyond with primary funding through our general obligation bond.

Obligations

At the end of the 2010-11 fiscal year, the District had $214.7 million general obligation bonds outstanding. These bonds are repaid annually in accordance with the obligation requirements through an increase in the assessed property taxes on property within the West Valley-Mission Community College District boundaries. In addition to the above obligations, the District is obligated to employees of the District for vacation and load banking benefits and lease purchase agreement for equipment.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The Board of Trustees adopted the final budget for FY 2010-11 on November 16, 2011.

Within the District, operating costs have continually increased. The State Budget has not kept pace with the increased operating costs, primarily in health and welfare benefits, especially in regards to the need to recognize post retirement benefits.

The Board of Trustees approved the budget Priorities for FY 2011-12 on March 16, 2010. The intent of the budget priorities was to accomplish the approved goals over two fiscal years. In accordance with District Policy 6.5.3, the following District Budget Priorities are established for the 2011-12 and 2012-13 Fiscal Years. References to Board Goals refer to those Goals approved at the Board of Trustee meeting of February 15, 2011.

The priority of the Board for the 2011-12 and 2012-13 Fiscal Years is to establish a budget that balances on-going expenditures with on-going revenues and maintains a prudent Unrestricted General Fund Reserve of 5%. (Board Goal #2).

The Administration is directed to consider the following in developing the budget:

1) Maintain effective instructional and student support programs and services to foster a learning-centered environment. (Board Goal #4)
2) Seek growth in Full-time Equivalent Students (FTES) to achieve maximum State revenues through efficient management of enrollments and class sections. (Board Goal #1)
3) Improve administrative systems and organizational structures to improve efficiency and effectiveness. (Board Goal #5)
4) Minimize the filling of vacant positions while developing a staffing plan to reduce personnel costs and/or make more effective use of existing positions. (Board Goal #2 and #5)
5) Control the rising cost of health care benefits through plan design, aggressive negotiations with providers, hard audits of participants and collective bargaining. (Board Goal #2)
6) Effectively manage cash to meet anticipated obligations. (Board Goal #2)
7) Allocate resources to address accreditation recommendations
8) Examine all possible assets of the District to determine how such assets can generate additional revenues and aggressively pursue community and business partnerships.

The 2011-12 budget was balanced with one-time reserves, while maintaining a prudent unrestricted general fund reserve of 5 percent, and a board contingency reserve of 0.65 percent.
ECONOMIC FACTORS AFFECTING THE FUTURE OF THE WEST VALLEY-MISSION COMMUNITY COLLEGE DISTRICT

The economic position of the District is closely tied to the State of California as State apportionments and property taxes allocated to the District represent over half of its total unrestricted sources of revenue received within the General Fund.

Although June 15 is the constitutional deadline for the legislature to submit its proposed budget to the Governor, the state budget was approved 100 days into the new fiscal year on October 8, 2010. For the 2010-11 fiscal year, the LAO’s forecast of California’s General Fund revenues and expenditures shows that the state must address a budget problem of $25.4 billion between now and the time the Legislature enacts a 2011-12 state budget plan. The budget problem consists of a $6 billion projected deficit for 2010-11 and a $19 billion gap between projected revenues and spending in 2011-12. The State budget for FY 2010-11 increased the apportionment deferrals for California Community Colleges by $129 million, creating a total inter-year deferral of $832 million.

The District did not have a cash flow constraint during FY 2010-11 due to State deferrals and property tax shortfalls, but will continue to monitor cash on a monthly basis during FY 2011-12.

CONTACTING THE DISTRICT’S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District’s finances and to show the District’s accountability for the money it receives. If you have questions about this report or need any additional financial information, contact the West Valley-Mission Community College District:

The accompanying notes are an integral part of these financial statements.
NOTE 1 – ORGANIZATION

The West Valley-Mission Community College District (the District) was established in 1963 as a political subdivision of the State of California and provides post secondary educational services to residents of Santa Clara County. The District operates under a locally elected eight-member Board of Trustees form of government, which establishes the policies and procedures by which the District operates. The Board must approve the annual budgets for the General Fund, Special Revenue Funds, and Capital Project Funds, but these budgets are managed at the department level. Currently, the District operates two community colleges located within Santa Clara County, California. While the District is a political subdivision of the State of California, it is not a component unit of the State in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 39.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The District follows GASB Statement No. 39, Determining Whether Certain Organizations are Component Units. This statement amends GASB Statement No. 14, The Financial Reporting Entity, to provide additional guidance to determine whether certain organizations, for which the District is not financially accountable, should be reported as component units based on the nature and significance of their relationship with the District. The District has determined that the West Valley – Mission Advance Foundation and West Valley-Mission College Foundation do not meet the criteria for inclusion under GASB 39. The three components used to determine the presentation are: providing a "direct benefit", the "environment and ability to access/influence reporting", and the "significance" criterion. As defined by accounting principles generally accepted in the United States of America and established by the Governmental Accounting Standards Board, the financial reporting entity consists of the primary government, the District, and the following component units:

As defined by generally accepted accounting principles established by the GASB, the financial reporting entity consist of the primary government (the District), as well as the following component units:

- West Valley-Mission College District Financing Corporation
- Mission-West Valley Land Corporation

The West Valley-Mission College District Financing Corporation (the Corporation) is a legally separate organization component unit of the District. The Corporation was formed to provide financing assistance to the District for construction and acquisition of major capital facilities. The District appoints the Corporation’s governing board. All accounting and administrative functions are performed by the District. The Corporation meets the criteria of the governing authority’s ability to significantly influence operations and accountability for fiscal matters and the criteria for inclusion in the District’s reporting entity and is reported as a blended component unit. The financial activities of the Corporation have been included in these financial statements in the Revenue Bond Debt Service Fund and the Capital Outlay Projects Fund. Individually-prepared financial statements are not prepared for the Corporation.
The *Mission-West Valley Land Corporation* (MWVLC) is a non-profit organization under IRS Code Section 501(c)(3). The board of the MWVLC is the same as the District’s. The MWVLC meets the criteria of the governing authority’s ability to significantly influence operations and accountability for fiscal matters and the criteria for inclusion in the District’s reporting entity. Its purpose is to provide programs that enhance and enrich the community life of the District both educationally and culturally. The financial activity of the MWVLC is reported as a separate discretely presented component unit. Individually-prepared financial statements can be obtained from District Business Office.

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

For financial reporting purposes, the District is considered a special-purpose government engaged only in business-type activities. Accordingly, the District's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency and intra-fund transactions have been eliminated.

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are classified as operating revenues. These transactions are recorded on the accrual basis when the exchange takes place. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within 60 days of fiscal year-end. For the District, operating revenues consist primarily of student fees and auxiliary through the bookstore and cafeteria.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include State apportionments, property taxes, certain Federal and State grants, entitlements, and donations. Property tax revenue is recognized in the fiscal year received. State apportionment revenue is earned based upon criteria set forth from the Community Colleges Chancellor’s Office and includes reporting of full-time equivalent student (FTES) attendance. The corresponding apportionment revenue is recognized in the period the FTES are generated. Revenue from Federal and State grants and entitlements are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements may include time and or purpose requirements.

Operating expenses are costs incurred to provide instructional services including support costs, auxiliary services, and depreciation of capital assets. All other expenses not meeting this definition are reported as nonoperating. Expenses are recorded on the accrual basis as they are incurred, when goods are received, or services are rendered.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America (US GAAP) as applicable to colleges and universities, as well as those prescribed by the California Community Colleges Chancellor's Office. The District reports are based on all applicable Governmental Accounting Standards Board (GASB) pronouncements, as well as applicable Financial Accounting Standards Board (FASB) pronouncements. The District has elected not to apply FASB pronouncements issued after November 30, 1989. When applicable, certain prior year amounts have been reclassified to conform to current year presentation.
The financial statements are presented in accordance with the reporting model as prescribed in GASB Statement No. 34, *Basic Financial Statements and Management's Discussions and Analysis for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussions and Analysis for Public Colleges and Universities*, as amended by GASB Statements No. 37 and 38. The business-type activities model followed by the District requires the following components of the District's financial statements:

- Management's Discussion and Analysis
- Basic Financial Statements for the District as a whole including:
  - Statement of Net Assets
  - Statement of Revenues, Expenses and Changes in Net Assets
  - Statement of Cash Flows
- Notes to the Financial Statements

The following is a summary of the more significant policies:

### Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be unrestricted cash on hand, demand deposits, and short-term unrestricted investments with original maturities three months or less from the date of acquisition. Cash equivalents also include unrestricted cash with county treasury balances for purposes of the statement of cash flows. Restricted cash and cash equivalents represents balances restricted to external sources such as grants and contracts or specifically restricted for the repayment of capital debt.

### Investments

Investments held at June 30, 2011 and 2010, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost at amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

### Restricted Assets

Restricted assets arise when restrictions on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other government or imposed by enabling legislation. Restricted assets represented investments required by debt covenants to be set aside by the District for the purpose of satisfying certain requirements of the bonded debt.

### Accounts Receivable

Accounts receivable include amounts due from the Federal, State and/or local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the District's grants and contracts. Accounts receivable also consist of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty, and staff, the majority of each residing in the State of California. The District provides for an allowance for uncollectible accounts as an estimation of amounts that may not be received. This allowance is based upon management's estimates and analysis. The allowance was estimated at $673,650 and $672,673, respectively, as of June 30, 2011 and 2010.
Prepaid Expenses

Prepaid expenditures or expenses represent payments made to vendors and others for services that will benefit periods beyond June 30.

Capital Assets and Depreciation

Capital assets are long-lived assets of the District as a whole and include land, construction-in-progress, buildings, leasehold improvements, and equipment. The District maintains an initial unit cost capitalization threshold of $5,000. Assets are recorded at historical cost, or estimated historical cost, when purchased or constructed. The District does not possess any infrastructure. Donated capital assets are recorded at estimated fair market value at the date of donation. Improvements are capitalized; the costs of routine maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are charged as an operating expense in the year in which the expense was incurred. Major outlays for capital improvements are capitalized as construction-in-progress as the projects are constructed.

Depreciation of capital assets is computed and recorded utilizing the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 50 years; improvements, 20 years; equipment, 8 to 20 years.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the entity-wide financial statements.

Deferred Issuance Costs, Premiums, and Discounts

Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method.

Compensated Absences

Accumulated unpaid employee vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the entity-wide financial statements. The amounts have been recorded in the fund from which the employees, who have accumulated the leave, are paid.

Sick leave is accumulated without limit for each employee based upon negotiated contracts. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, retirement credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Retirement credit for unused sick leave is applicable to all academic employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full time.
The District also established policy to accrue faculty banked leave. The rates to accrue banked leave are as follows:

<table>
<thead>
<tr>
<th>Banked Load Limit</th>
<th>Basis of Accrual</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than 1.0</td>
<td>Prevailing associate / part-time faculty rate</td>
</tr>
<tr>
<td>1.0</td>
<td>Full-time faculty rate</td>
</tr>
<tr>
<td>1.01 but less than 2.0</td>
<td>The first 1.0 at full-time faculty rate, the excess at part-time faculty rate</td>
</tr>
<tr>
<td>2.0</td>
<td>Full-time faculty rate</td>
</tr>
<tr>
<td>2.01 and more</td>
<td>First 2.0 at full-time faculty rate, the excess at part-time faculty rate</td>
</tr>
</tbody>
</table>

A full-time faculty member cannot earn greater than 2.0 banked loads in addition to the 2.0 of pre-retirement banked load. The absolute accumulative total of banked load at any time is 4.0. The full liability for this benefit is reported on the entity-wide financial statements.

Deferred Revenue

Deferred revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Deferred revenues include (1) amounts received for tuition and fees prior to the end of the fiscal year that are related to the subsequent fiscal year and (2) amounts received from Federal and State grants received before the eligibility requirements are met are recorded as deferred revenue.

Noncurrent Liabilities

Noncurrent liabilities include bonds and notes payable, compensated absences, capital lease obligation and OPEB obligations with maturities greater than one year.

Net Assets

GASB Statements No. 34 and No. 35 report equity as "Net Assets" and represents the difference between assets and liabilities. Net assets are classified according to imposed restrictions or availability of assets for satisfaction of District obligations according to the following net asset categories:

- **Invested in Capital Assets, Net of Related Debt**: Capital Assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.

- **Restricted – Expendable**: Net assets whose use by the District is subject to externally imposed constraints that can be fulfilled by actions of the District pursuant to those constraints or by the passage of time.

- **Unrestricted**: Net assets that are not subject to externally imposed constraints. Unrestricted net assets may be designated for specific purposes by action of the Board of Trustees or may otherwise be limited by contractual agreements with outside parties. Substantially all unrestricted net assets are designated for educational and general operations of the District.
When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first and the unrestricted resources when they are needed.

**State Apportionments**

Certain current year apportionments from the State are based on financial and statistical information of the previous year. Any corrections due to the recalculation of the apportionment are made in February of the subsequent year. When known and measurable, these reclassifications and corrections are accrued in the year in which the FTES are generated.

**Property Tax**

Secured property taxes attach as an enforceable lien on property as of January 1. The County Assessor is responsible for assessment of all taxable real property. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Santa Clara bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

The voters of the District passed a General Obligation Bond in 2004 for the acquisition, construction and remodeling of certain District property. As a result of the passage of the Bond, property taxes are assessed on the property within the District specifically for the repayment of the debt incurred. The taxes are billed and collected as noted above and remitted to the District when collected.

**Scholarship Discounts and Allowances**

Student tuition and fee revenue is reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Assets. Scholarship discounts and allowances represent the difference between stated charges for enrollment fees and the amount that is paid by students or third parties making payments on the students' behalf. To the extent that fee waivers and discounts have been used to satisfy tuition and fee charges, the District has recorded a scholarship discount and allowance.

**Federal Financial Assistance Programs**

The District participates in federally funded Pell Grants, SEOG Grants, Federal Work-Study, outstanding Perkins Loan, and Stafford Loan programs, as well as other programs funded by the Federal government. Financial aid to students is either reported as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expense represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to students in the form of reduced tuition. These programs are audited in accordance with the Single Audit Act Amendments of 1996, and the U.S. Office of Management and Budget's revised Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, and the related *Compliance Supplement*. During the years ended June 30, 2011 and 2010, the District distributed $1,648,450 and $1,729,190, respectively, in direct lending through the U.S. Department of Education. These amounts have been included as revenues or expenses within the accompanying financial statements as the amounts were passed directly to qualifying students, however, the amounts are included on the Schedule of Federal Financial Assistance.
On-Behalf Payments

GASB Statement No 24 requires direct on-behalf payments for fringe benefits and salaries made by one entity to a third party recipient for the employees for another legally separate entity be recognized as revenue and expenditures by the employer entity. The State of California makes direct on-behalf payments to the California State Teachers’ Retirement System (CalSTRS) and the California Public Employees’ Retirement System (CalPERS) on behalf of all community colleges in California.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Component Unit – Mission West Valley Land Corporation Presentation

The Mission West Valley Land Corporation (Land Corporation) presents its financial statements in accordance with Statement of Financial Accounting Standards (SFAS) No. 117, Financial Statements of Not-for-Profit Organizations. Under SFAS No. 117, the Land Corporation is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. As permitted by the statement, the Land Corporation does not use fund accounting.

The assets, liabilities, and fund balance of the Organization are reported as unrestricted funds, which represent the portion of resources that are available for general support of the Organization’s operations. The Organization is a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and related California Franchise Tax Codes.

New Accounting Pronouncements

In November 2010, the GASB issued GASB Statement No. 61, The Financial Reporting Entity: Omnibus-amendment of GASB Statement No. 14 and No. 34. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of Statement No. 14, The Financial Reporting Entity, and the related financial reporting requirements of Statement No. 34, Basic Financial Statements-and Management’s Discussion and Analysis-for State and Local Governments, were amended to better meet user needs and to address reporting entity issues that have risen since the issuance of those Statements.

This Statement modifies certain requirements for inclusion of component units in the financial reporting entity. For organization that previously were required to be included as component units by meeting the fiscal dependency criterion, a financial benefit or burden relationship also would need to be present between the primary government and that organization for it to be included in the reporting entity as a component unit. Further, for organizations that do not meet the financial accountability criteria for inclusion as component units but that, nevertheless, should be included because the primary government’s management determines that it would be misleading to exclude them, this Statement clarifies the manner in which that determination should be made and the types of relationships that generally should be considered in making the determination.
This Statement also amends the criteria for reporting component units as if they were part of the primary government (that is, blending) in certain circumstances. For component units that currently are blended based on the “substantively the same governing body” criterion, it additionally requires that (1) the primary government and the component unit have a financial benefit or burden relationship or (2) management (below the level of the elected officials) of the primary government have operational responsibility (as defined in paragraph 8a) for the activities of the component unit. New criteria also are added to require blending of component units whose total debt outstanding is expected to be repaid entirely or almost entirely with resources of the primary government. The blending provisions are amended to clarify that funds of a blended component unit have the same financial reporting requirements as a fund of the primary government. Lastly, additional reporting guidance is provided for blending a component unit if the primary government is a business-type activity that uses a single column presentation for financial reporting.

This Statement also clarifies the reporting of equity interests in legally separate organizations. It requires a primary government to report its equity interest in a component unit as an asset. The provisions of this Statement are effective for financial statements for periods beginning after June 15, 2012. Early implementation is encouraged.

Comparative Financial Information

Comparative financial information for the prior year has been presented for additional analysis; certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

NOTE 3 - DEPOSITS AND INVESTMENTS

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.
### Investment in the State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California government code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in the pool is reported in the accompanying financial statement at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which is recorded on the amortized cost basis.

### General Authorizations

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are indicated in the schedules below:

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by primarily investing in County and State investment pools.

Specific Identification

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

<table>
<thead>
<tr>
<th>Investment Type</th>
<th>Fair Value</th>

</tbody>
</table>
Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The District's investments in the County pool and LAIF are not required to be rated, nor have they been rated as of June 30, 2011.

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit.) The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2011, approximately $340,000 of the District's bank balance was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

Custodial Credit Risk - Investments

This is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The California government Code and the District’s investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments.
NOTE 4 - ACCOUNTS RECEIVABLE

Accounts receivables for the District consisted primarily of intergovernmental grants, entitlements, interest, and other local sources.

The accounts receivable are as follows:

<table>

Depreciation expense for the year was $6,351,361.

**Discretely Presented Component Unit**

As of June 30, 2011 and 2010, the Mission-West Valley Land Corporation owned land with a historical cost of $16,702.

**NOTE 6 - INTERFUND TRANSACTIONS**

**Operating Transfers**

Operating transfers between District governmental funds are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. These operating transfers have been eliminated through consolidation within the entity-wide financial statements. Transfers between the primary government and the fiduciary funds are eliminated in the consolidation process. During the 2011 fiscal year the amount transferred to the primary government from the fiduciary funds totaled to $9,090,248.
NOTE 7 - ACCOUNTS PAYABLE

Accounts payable for the District consisted of the following:

<table>

Description of Debt

Payments on the 2006 general obligation bonds are made by the Measure H Debt Services - Bond Interest and Redemption Fund with local revenues. Payments on the 2009A revenue bonds are made by the Student Representation Fee Funds. Payments on the 2009A-1 revenue bonds are made by the General Fund. Capital leases payments are made by the General Fund. The compensated absences and other post employment benefits will be paid by the fund for which the employee worked.

General obligation bonds were approved by a local election in November 2004. The total amount approved by the voters was $235,000,000. At June 30, 2011, $235,000,000 had been issued and $214,685,091 was outstanding. Interest rates on the bonds range from 1.83 percent - 5.00 percent.

Revenue bonds were issued in November 2009 for $55,000,000 to provide funding for retiree benefits, and $1,120,000 for the West Valley Student Center. Interest rates on the bonds range from 2.00 percent to 8.253 percent and will be partially offset by federal subsidies under the Build America Bond program.

The District has utilized capital leases agreements to purchase primarily equipment. The current lease purchase agreements in the amount of $6,606 will be paid through 2012.

</table>
Compensated Absences and Faculty Banked Leave Liability

The District calculated the total long term portion of compensated absences as of June 30, 2011 at $6,861,394. Of this amount, $3,888,170 was calculated for the unfunded faculty banked leave, $2,960,385 for accrued vacation, and $12,318 for compensated absences and compensatory time. In addition to the $3,888,170 of unfunded faculty banked leave there is $3,667,389 of faculty banked leave, which was accrued in the District’s general fund as funds have been set aside for the future payment of this liability. The compensated absences and the unfunded faculty banked leave are included in the entity-wide statements.

Supplemental Early Retirement Plan

In May 2008, the District approved an offering of a Supplemental Early Retirement Plan (SERP) incentive to eligible employees. The window to elect to participate was August 1, 2008 through August 31, 2008 and the District liability for those faculty electing to participate was $47,825. The premium for annuities purchased by the District was over a five year period beginning in FY 07/08 through FY 11/12. In addition, in March 2009, the District approved offering a CalSTRS “Plus 2” or bonus lump sum cash payable to eligible employees. The window to elect to participate in the CalSTRS “Plus 2” plan was July 1, 2009 through August 31, 2009. The District received a grant from the Mission West Valley Land Corporation to pay for CalSTRS “Plus 2” and cash incentive in full rather than deferring payments over 8 years and paying interest. Other bargaining units were also offered a similar Supplemental Early Retirement Program with the same window as the CalSTRS plan. The premiums for annuities purchased by the District for other employee groups was over a five year period beginning in FY 09/10 through FY 12/13.

* Retirees receive 50% benefits for 10 years of service + 10% for additional year of service to 100% for 15

Active plan participants at June 30, 2011 totaled 127 and current retirees were 522. Employees hired after January 1, 1994 are not eligible for medical benefits upon retirement.

Contribution Information

The contribution requirements of plan members and the District are established and may be amended by the District, the District’s bargaining units and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually through the agreements between the District, the District’s bargaining units and the unrepresented groups. For fiscal year 2010-11, the District contributed $7,827,156 to the plan, all of which was used for current premiums (approximately 119 percent of estimated current year’s annual required contributions). In addition, the District contributed $26,963,341 to the plan through the sale of lease revenue bonds in the prior year. The District recognizes the costs of providing those benefits and related costs when paid.

Annual OPEB Cost and Net OPEB Asset/Obligation

The District’s annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (UAAL) (or funding excess) over a period not to exceed thirty years.
The following table shows the components of the District’s annual OPEB cost for the year, the amount actually contributed to the Plan and changes in the District’s net OPEB obligation to the Plan:

<p>| | |</p>

Funded Status and Funding Progress

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. In the June 30, 2011, actuarial valuation, the entry age normal method was used. The actuarial assumptions included a 7.61 percent investment rate of return, (net of administrative expenses). The healthcare cost trend rate was 4 percent until reaching the ultimate trend. The UAAL is being amortized at a level percentage with payroll assuming a 3 percent annual increase in payroll. The remaining amortization period at June 30, 2011, was 27 years.
NOTE 11 - RISK MANAGEMENT

Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year ending June 30, 2011, the District contracted with the Bay Area Community College District for property and general insurance coverage. Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

For fiscal year 2010-2011, the District participated in the Northern California Community College Pool (“NCCCP”) for workers’ compensation insurance coverage. The intent of the JPA is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the JPA. The workers' compensation experience of the participating districts is calculated as one experience, and a common premium rate is applied to all districts in the JPA. Each participant pays its workers' compensation premium based on its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall saving. A participant will then either receive money from or be required to contribute to the "equity-pooling fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the JPA. Participation in the JPA is limited to K-12 and community college districts that can meet the JPA's selection criteria.

NOTE 12 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer retirement plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

CalSTRS

Plan Description

The District contributes to CalSTRS, a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits and survivor benefits to beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 7919 Folsom Boulevard, Sacramento, California 95826.

All certificated employees and those employees meeting minimum standards adopted by the Board of Governors of the California Community Colleges, and employed 50 percent or more of a full-time equivalent position, participates in the Defined Benefit Plan (DB Plan). Part-time educators hired under a contract of less than 50 percent or on an hourly or daily basis without contract may elect membership in the Cash Balance Benefit Program (CB Benefit Program). Since January 1, 1999, both of these plans have been part of the California State Teachers' Retirement Plan (CalSTRS), a cost-sharing, multiple-employer contributory public employee retirement system. The California State Teachers' Retirement Law (Part 13 of the California Education Code, Section 22000 et seq.) established benefit provisions for CalSTRS. Copies of the CalSTRS annual financial report may be obtained from the CalSTRS Executive Office, 7667 Folsom Boulevard, Sacramento, California 95851.
The CalSTRS, a defined benefit pension plan, provides retirement, disability, and death benefits, and depending on which component of the CalSTRS the employee is in, post-retirement cost-of-living adjustments may also be offered. Employees in the DB Plan attaining the age of 60 with five years of credited California service (service) are eligible for "normal" retirement and are entitled to a monthly benefit of two percent of their final compensation for each year of service. Final compensation is generally defined as the average salary earnable for the highest three consecutive years of service. The plan permits early retirement options at age 55 or as early as age 50 with at least 30 years of service. While early retirement can reduce the two percent age factor used at age 60, service of 30 or more years will increase the percentage age factor to be applied. Disability benefits are generally the maximum of 90 percent of final compensation for most applicants. Eligible dependent children can increase this benefit up to a maximum of 90 percent of final compensation. After five years of credited service, members become 100 percent vested in retirement benefits earned to date. If a member's employment is terminated, the accumulated member contributions are refundable. The features of the CB Benefit Program include immediate vesting, variable contribution rates that can be bargained, guaranteed interest rates, and flexible retirement options. Participation in the CB Benefit Program is optional; however, if the employee selects the CB Benefit Program and their basis of employment changes to half time or more, the member will automatically become a member of the DB Plan.

**Funding Policy**

Active members of the DB Plan are required to contribute 8.0 percent of their salary while the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalSTRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2010-2011 was 8.25 percent of annual payroll. The contribution requirements of the plan members are established by State statute. The CB Benefit Program is an alternative CalSTRS contribution plan for instructors. Instructors who choose not to sign up for the DB Plan or FICA may participate in the CB Benefit Program. The District contribution rate for the CB Benefit Program is always a minimum of four percent with the sum of the District and employee contribution always being equal or greater than eight percent.

**Annual Pension Cost**

The District's total contributions to CalSTRS for the fiscal years ended June 30, 2011, 2010, and 2009, were $3,008,577, $3,015,734, and $3,324,018, respectively, and equal 100 percent of the required contributions for each year.

**CalPERS**

**Plan Description**

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95811.
All full-time classified employees participate in the CalPERS, an agent multiple-employer contributory public employee retirement system that act as a common investment and administrative agent for participating public entities within the State of California. The West Valley-Mission Community College District is part of a "cost-sharing" pool with CalPERS. Employees are eligible for retirement as early as age 50 with five years of service. At age 55, the employee is entitled to a monthly benefit of 2.0 percent of final compensation for each year of service credit. Retirement compensation is reduced if the plan is coordinated with Social Security. Retirement after age 55 will increase the percentage rate to a maximum of 2.5 percent at age 63 with an increased rate. The plan also provides death and disability benefits. Retirement benefits fully vest after five years of credited service. Upon separation from the Fund, members' accumulated contributions are refundable with interest credited through the date of separation.

The Public Employees' Retirement Law (Part 3 of the California Government Code, Section 20000 et seq.) establishes benefit provisions for CalPERS. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95814.

**Funding Policy**

Active plan members are required to contribute 7.0 percent of their salary (7.0 percent of monthly salary over $133.33 if the member participates in Social Security), and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The District's contribution rate to CalPERS for fiscal year 2010-2011 was 10.707 percent of covered payroll.

**Annual Pension Cost**

The District's contributions to CalPERS for fiscal years ending June 30, 2011, 2010, and 2009, were $2,478,825, $2,142,577, and $2,192,341, respectively, and equaled 100 percent of the required contributions for each year.

**Social Security**

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by Social Security or an alternative plan. The District has elected to use Social Security as its alternative plan for full time employees. Contributions made by the District and an employee vest immediately. The District contributes 6.2 percent of an employee's gross earnings. An employee is required to contribute 6.2 percent of his or her gross earnings to the pension plan.

**Alternative Plan**

The District offers Accumulation Program for Part-Time and Limited Service Employees (Apple Plan) approved in 1991 for part-time employees who are not members of CalSTRS and CalPERS. The District contributes 4 percent of their salary on behalf of the employees to the plan.

**On Behalf Payments**

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS which amounted to $1,777,092 (4.267 percent) of salaries subject to CalSTRS. These amounts have been reflected in the basic financial statements as a component of nonoperating revenue and employee benefit expense.
NOTE 13 - COMMITMENTS AND CONTINGENCIES

Grants

The District receives financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies.

Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2011.

Construction Commitments

As of June 30, 2011, the District had the following commitments with respect to the unfinished capital projects:

The projects are funded through a combination of general obligation bonds and capital project apportionments from the State Chancellor's Office.
NOTE 14 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS AND JOINT POWERS AUTHORITIES

The District is a member of the Northern California Community College Pool ("NCCCP") and the Bay Area Community College District (BACCD) Joint Powers Authority JPAs. The District pays annual premiums for its property and general liability and workers' compensation coverage. The relationship between the District and the JPA is such that it is not a component unit of the District for financial reporting purposes.

The JPAs have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, transactions between the JPAs and the District are included in these statements. Audited financial statements are available from the respective entities. The District's share of year-end assets, liabilities, or fund equity has not been calculated. During the year ended June 30, 2011, the District made payments of $1,466,841 and $538,979 to NCCCP and BACCD, respectively.

SUPPLEMENTARY INFORMATION
The West Valley-Mission Community College District was established in January, 1963. The District encompasses areas primarily in Santa Clara County and also Santa Cruz County, California. The administrative offices of the District are located in Saratoga, California. There were no changes in the boundaries of the District during the current year. The District’s colleges are each accredited by the Western Association of Schools and Junior Colleges.

NOTE TO SUPPLEMENTARY INFORMATION
JUNE 30, 2011

NOTE 1 - PURPOSE OF SCHEDULES

District Organization

This schedule provides information about the District’s governing board members and administration members.

Schedule of Expenditures of Federal Awards

The accompanying schedule of expenditures of Federal awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the United States Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenses, and Changes in Net Assets-Primary Government and the related expenditures reported on the Schedule of Federal Awards. The reconciliation amounts consist primarily of funds that in the previous period were recorded as revenues but were unspent. These unspent balances have been expended in the current period. These unspent balances are reported as legally restricted ending balances within the Statement of Net Assets-Primary Government.

Schedule of Expenditures of State Awards

The accompanying schedule of expenditures of State awards includes the State grant activity of the District and is presented on the modified accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The information in this schedule is presented to comply with reporting requirements of the California State System’s Office.

Schedule of Workload Measures for State General Apportionment Annual (Actual) Attendance

Full-Time Equivalent Students (FTES) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds, including restricted categorical funding, are made to community college districts. These schedules provide information regarding the annual attendance measurements of students throughout the District.
Reconciliation of Annual Financial and Budget Report (CCSF-311) with Fund Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Form CCSF-311 to the District’s internal fund financial statements.
INDEPENDENT AUDITORS' REPORTS
INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees
West Valley-Mission Community College District
Saratoga, California

We have audited the basic financial statements of West Valley-Mission Community College District (the District) and its discretely presented component unit for the years ended June 30, 2011 and 2010, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 21, 2011. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

The management of West Valley-Mission Community College District is responsible for establishing and maintaining effective internal control over financial reporting.

In planning and performing our audits, we considered West Valley-Mission Community College District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of West Valley-Mission Community College District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of West Valley-Mission Community College District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.
Compliance and Other Matters

As part of obtaining reasonable assurance about whether West Valley-Mission Community College District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of West Valley-Mission Community College District a separate letter dated December 21, 2011.

This report is intended solely for the information and use of the Board of Trustees, Audit Committee, District Management, the California Community Colleges Chancellor's Office, and the District's Federal and State awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH
REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT
ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Trustees
West Valley-Mission Community College District
Saratoga, California

Compliance

We have audited West Valley-Mission Community College District's (the District's) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of West Valley-Mission Community College District's major Federal programs for the year ended June 30, 2011. West Valley-Mission Community College District's major Federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major Federal programs is the responsibility of West Valley-Mission Community College District's management. Our responsibility is to express an opinion on West Valley-Mission Community College District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about West Valley-Mission Community College District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of West Valley-Mission Community College District's compliance with those requirements.

In our opinion, West Valley-Mission Community College District complied, in all material respects, with the compliance requirements referred to above could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2011.
Internal Control Over Compliance

The management of West Valley-Mission Community College District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to Federal programs. In planning and performing our audit, we considered West Valley-Mission Community College District's internal control over compliance with the requirements that could have a direct and material effect on a major Federal program to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of West Valley-Mission Community College District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies as described in the accompanying schedule of findings and questioned costs as item 2011-1. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit the attention of those charged with governance.

West Valley-Mission Community College District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit West Valley-Mission Community College District's response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of the Board of Trustees, Audit Committee, District Management, the California Community Colleges Chancellor's Office, and the District's Federal and State awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON STATE COMPLIANCE

Board of Trustees
West Valley-Mission Community College District
Saratoga, California

We have audited the basic financial statements of West Valley-Mission Community College District (the District), as of and for the year ended June 30, 2011, and have issued our report thereon dated December 21, 2011.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Compliance with the requirements of laws, regulations, contracts, and grants listed below is the responsibility of West Valley-Mission Community College District's management. In connection with the audit referred to above, we selected and tested transactions and records to determine the West Valley-Mission Community College District's compliance with the State laws and regulations applicable to the following items:

- Section 421 Salaries of Classroom Instructors: 50 Percent Law
- Section 423 Apportionment for Instructional Service Agreements/Contracts
- Section 424 State General Apportionment Required Data Elements
- Section 425 Residency Determination for Credit Courses
- Section 426 Students Actively Enrolled
- Section 427 Concurrent Enrollment of K-12 Students in Community College Credit Courses
- Section 431 Gann Limit Calculation
- Section 432 Enrollment Fee
- Section 433 CalWORKS – Use of State and Federal TANF Funding
- Section 435 Open Enrollment
- Section 437 Student Fee – Instructional Materials and Health Fees
- Section 473 Economic and Workforce Development (EWD)
- Section 474 Extended Opportunity Programs and Services (EOPS)
- Section 475 Disabled Student Programs and Services (DSPS)
- Section 477 Cooperative Agencies Resources for Education (CARE)
Based on our audit, we found that for the items tested, the West Valley-Mission Community College District complied with the State laws and regulations referred to above, except as described in the Schedule of State Award Findings and Questioned Costs section of the accompanying Schedule of Findings and Questioned Costs. Our audit does not provide a legal determination on West Valley-Mission Community College District's compliance with the State laws and regulations referred to above.

West Valley-Mission Community College District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit West Valley-Mission Community College District's response and, accordingly, we express no opinion on the response.

This report is intended solely for the information of the Board of Trustees, Audit Committee, District Management, the California Community Colleges Chancellor's Office, the California Department of Finance, and the California Department of Education, and is not intended to be and should not be used by anyone other than these specified parties.

\[\text{Unqualified}\]
None noted.
The following findings represent significant deficiencies, material weaknesses, and/or instances of noncompliance related to the financial statements that are required to be reported in accordance with *Government Auditing Standards*.

2011-1  Finding – Student Financial Aid Cluster, Pell Grants - CFDA #84.063  
*Significant Deficiency, Internal Control Over Compliance*

**Criteria or Specific Requirement**

OMB A133 compliance supplement guidelines in Part 5, Cluster Programs for Student Financial Aid includes requirements that a District calculate funds not earned by students receiving financial aid and submit a report to a centralized reporting system within prescribed timelines. One of the critical timelines for this process is to determine the student’s withdrawal date within 30 days after the earliest of 1) the enrollment period, 2) the academic year, or 3) the program.

**Condition**

We noted that the identification of financial aid funds to be returned for students who had originally received financial aid was not consistently completed within 30 days of the students’ withdrawal.

**Questioned Costs**

None, as the actions were completed accurately, but were not timely.

**Context**

We reviewed the reporting of 40 of 390 Return to Title IV students and noted thirteen were not identified within the required 30 day timeframe.

**Effect**

The District did not comply with the required timelines for identification of students receiving financial aid that are subject to Return to Title IV provision, and therefore, the next step in the process of notifying the students and returning funds to the system may be delayed.

**Cause**

The District did not have an effective process to identify student withdrawals within the time frames.

**Recommendation**

The Financial Aid Departments should review the methodology of determining student withdrawals and assess methods to be able to identify the withdrawn students within the above timelines.

**District Response**

The colleges have changed their methodology to ensure timely response by performing the Return of Title IV calculations on a monthly basis.
The following findings represent significant deficiencies, material weaknesses, and/or instances of noncompliance including questioned costs that are required to be reported by OMB Circular A-133.

2011-2 Finding – To Be Arranged Hours (TBA)

**Criteria or Specific Requirement**

Title 5, Section 55002(a)(3), 55002(b)(2), 58050(5), and 58051(a)(1) require that specific instructional activities, including those conducted during TBA hours, expected of all students enrolled in the course be included in the official course outline. In addition, Title 5 Section 58102 and 58108 require that a clear description of the course, including the number of TBA hours required be published in the official general catalog or addendum thereto and in the official schedule of classes or addendum thereto.

**Condition**

We noted two courses where the official outline did not include a description of the TBA activities.

**Questioned Costs**

None, as condition is that a documentation consistency improvement is needed.

**Context**

We reviewed 40 courses from the two College sites and noted two ESL courses where the TBA activity description was not in the official outline and TBA hours were claimed for apportionment.

**Effect**

Course materials do not concisely and consistently describe the TBA expectations, activities and hours.

**Cause**

Course materials were not consistent with operation of the course.

**Recommendation**

We recommend the District review TBA course outlines, catalogs and course schedule materials to verify that TBA is appropriately noticed and described in the course materials.

**District Response**

For the past 5 years the District has addressed TBA courses either to eliminate the TBA portion and/or to ensure that TBA activities, evaluation process, and other required information to be on the course outlines and syllabus. This process has been strengthened with a systemic process starting in February 2012, so that the District continues to ensure that TBA courses are appropriately noticed and described in the course materials.
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2011

There were no audit findings reported in the prior year's schedules of Financial Statement Findings and Recommendations, Federal Award Findings and Questioned Costs, or State Award Findings and Questioned Costs.
